

Rossmoyne Senior High School

Semester One Examination, 2018
Question/Answer booklet

MATHEMATICS METHODS UNIT 3 Section One: Calculator-free

Name: _____

Teacher's Name: _____

Time allowed for this section

Reading time before commencing work: five minutes
Working time: fifty minutes

Materials required/recommended for this section

To be provided by the supervisor

This Question/Answer booklet

Formula sheet

To be provided by the candidate

Standard items: pens (blue/black preferred), pencils (including coloured), sharpener, correction fluid/tape, eraser, ruler, highlighters

Special items: nil

Important note to candidates

No other items may be taken into the examination room. It is **your** responsibility to ensure that you do not have any unauthorised material. If you have any unauthorised material with you, hand it to the supervisor **before** reading any further.

Structure of this paper

Section	Number of questions available	Number of questions to be answered	Working time (minutes)	Marks available	Percentage of examination
Section One: Calculator-free	8	8	50	52	35
Section Two: Calculator-assumed	12	12	100	81	65
Total					100

Instructions to candidates

1. The rules for the conduct of examinations are detailed in the school handbook. Sitting this examination implies that you agree to abide by these rules.
2. Write your answers in this Question/Answer booklet.
3. You must be careful to confine your response to the specific question asked and to follow any instructions that are specified to a particular question.
4. Supplementary pages for the use of planning/continuing your answer to a question have been provided at the end of this Question/Answer booklet. If you use these pages to continue an answer, indicate at the original answer where the answer is continued, i.e. give the page number.
5. Show all your working clearly. Your working should be in sufficient detail to allow your answers to be checked readily and for marks to be awarded for reasoning. Incorrect answers given without supporting reasoning cannot be allocated any marks. For any question or part question worth more than two marks, valid working or justification is required to receive full marks. If you repeat any question, ensure that you cancel the answer you do not wish to have marked.
6. It is recommended that you do not use pencil, except in diagrams.
7. The Formula sheet is not to be handed in with your Question/Answer booklet.

Supplementary Page

Question number: _____

Question 8

(5 marks)

Section One: Calculator-free

35% (52 Marks)

This section has **eight (8)** questions. Answer **all** questions. Write your answers in the spaces provided.

Working time: 50 minutes.

Question 1

(6 marks)

(a) Solve exactly for x in the following:
 $10e^x = 2e^{2.1x}$ (3 marks)

(b) If $\log a = x^2$ and $\log b = \frac{x^2}{z}$ determine $\log \frac{\sqrt{a}}{b^z}$ (3 marks)

End of questions

SN085-115-1

SN085-115-1

See next page

Question 2

(6 marks)

Determine $\frac{dy}{dx}$ for the following, simplifying each answer.

(a) $y = \sqrt{8x+1}$.

(2 marks)

(b) $y = 2x^5 \cos(5x)$.

(2 marks)

(c) $y = \int_x^3 t(1-t^2)^3 dt$.

(2 marks)

Question 7

(12 marks)

The function g is such that $g'(x) = ax^2 - 12x + b$, it has a point of inflection at $(1, -11)$ and a stationary point when $x = -1$

(a) Determine the values of a and b .

(4 marks)

(b) Determine $g(x)$.

(3 marks)

(c) Determine the coordinates and nature of all the stationary points in $g(x)$

(5 marks)

(4 marks)

A particle travels in a straight line so that its distance x cm from a fixed point O on the line after t seconds is given by:

$$x = \frac{2t^3}{3t + 1}, t \geq 0.$$

Calculate the velocity of the particle when $t = 1$.

Question 3

seconds is given by:

Question 6

Consider the graph of $y = f(x)$ for $-1 \leq x \leq 4$.

It is known that:

- $\int_{-1}^1 f(x) dx = 0$
- Areas C, D and E are 1, 5 and 4 units² respectively.
- When $x = 1.5$, $f(x) = 1$ and when $x = 3.5$, $f(x) = 2$

(a) Determine:

(i) $\int_{-1}^4 f(x) dx$

(2 marks)

- (iii) the area enclosed by the graph of $f(x)$ and the x -axis between 0 and 4 given that Area A = 3 units²

(2 marks)

- (b) Determine the value of $\int_{1.5}^{3.5} 2f'(x) dx$

(2 marks)

See next page

See next page

Question 4

(8 marks)

The graph of $y = (3 - 2x)^3$ is shown below.

- (a) Determine the area of the region enclosed by the curve and the coordinates axes. (4 marks)

- (b) For the diagram below, given that the area of the region bounded by the curve, the x -axis and the line $x = k$ is 8 square units, determine the value of k , where $0 < k < 1.5$. (4 marks)

Question 5

(5 marks)

- (a) Determine $\frac{d}{dx}(x \ln 3x)$ (2 marks)

- (b) **Hence** determine $\int \ln 3x \, dx$ (3 marks)
