## Physics ATAR Year 11 - Unit 1 and Unit 2, 2020 (Perth Modern School – Assessment Outline)

| Assessment<br>type     | Weighting | Assessment Items                            | Concept                           | Week  | Task<br>Weighting<br>% |
|------------------------|-----------|---|-----------------------------------|-------|------------------------|
| Science Inquiry Skills | 30%       | Motion Investigation (CAP 1)                | 2 <sup>nd</sup> Law of Motion     | 7     | 6                      |
|                        |           | Evaluation and Analysis - Waves             | Wave Behaviour                    | 11    | 4                      |
|                        |           | Experiment – Wave Motion (CAP 2)            | Standing Waves -<br>Closed Pipes  | 12    | 5                      |
|                        |           | Evaluation and Analysis - Nuclear (CAP 3)   | Dosimetry and<br>Nuclear Medicine | 20    | 4                      |
|                        |           | Investigation – Current Electricity (CAP 4) | Internal Resistance               | 26    | 6                      |
|                        |           | Experiment – Specific Heat Capacity (CAP 5) | Methods of Mixtures               | 31    | 5                      |
| Tests                  | 30%       | Motion Unit Test (CAP 1)                    |                                   | 7     | 8                      |
|                        |           | Wave Motion Unit Test (CAP 2)               |                                   | 12    | 6                      |
|                        |           | Nuclear Physics Unit Test (CAP 3)           |                                   | 20    | 6                      |
|                        |           | Electricity Unit Test (CAP 4)               |                                   | 26    | 5                      |
|                        |           | Heating Processes Unit Test (CAP 5)         |                                   | 31    | 5                      |
| Examinations           | 40%       | Semester 1 Examination                      |                                   | 14/15 | 18                     |
|                        |           | Semester 2 Examination                      |                                   | 33/34 | 22                     |
| Total                  |           |   |                                   |       | 100                    |

- Timing of specific assessment items are subject to variation at the discretion of subject teachers.
- Students will receive advance notice of seven days for topic tests.
- Students will not be permitted to sit tests or exams in advance of the set date.
- Assignment validations are timed at the discretion of staff post assignment due date and will incorporate problems and content covered by that assignment.
- Students who do not attend school on the day of an assessment will be required to present a Certificate of Misadventure upon their return to school.
