### Structure of this paper

Section	Number of questions available	Number of questions to be answered	Working time (minutes)	Marks available
Section One: Calculator-free	8	8	50	40
Section Two: Calculator-assumed	12	12	100	80
				120

### Instructions to candidates

- The rules for the conduct of Western Australian external examinations are detailed in the Year 12 Information Handbook 2010. Sitting this examination implies that you agree to abide by these rules.
- Write your answers in the spaces provided in this Question/Answer Booklet. Spare pages are included at the end of this booklet. They can be used for planning your responses and/or as additional space if required to continue an answer.
  - Planning: If you use the spare pages for planning, indicate this clearly at the top of the
  - Continuing an answer: If you need to use the space to continue an answer, indicate in the original answer space where the answer is continued, i.e. give the page number. Fill in the number of the question(s) that you are continuing to answer at the top of the page.
- Show all your working clearly. Your working should be in sufficient detail to allow your answers to be checked readily and for marks to be awarded for reasoning. Incorrect answers given without supporting reasoning cannot be allocated any marks. For any question or part question worth more than two marks, valid working or justification is required to receive full marks. If you repeat an answer to any question, ensure that you cancel the answer you do not wish to have marked.
- It is recommended that you do not use pencil except in diagrams.

Question number(s):\_

10

Working time for this section is 50 minutes.

Determine the equation of the tangent to the curve  $y=1-\frac{9}{2x-1}$  at the point (2, -2). (4 marks) L noitesuD

MATHEMATICS 3C/3D
CALCULATOR-FREE

TRIAL EXAMINATION 2010 SECTION ONE

Question 2 (4 marks)

Differentiate the following, without simplifying:

(a) 
$$y = \frac{3}{\sqrt{1 + e^{5x}}}$$
 (2 marks)

(b) 
$$y = \frac{x^3 - 4}{x - 2}$$
 (2 marks)

Question 3 (4 marks)

Determine the domain and range of  $f \circ g(x)$ , where  $f(x) = 2^{x+2}$  and  $g(x) = \sqrt{x+1}$ .

See next page End of questions

TRIAL EXAMINATION 2010 SECTION ONE

MATHEMATICS 3C/3D CALCULATOR-FREE

Question 8 (7 marks)

9

Determine the coordinates of all roots, stationary points and points of inflection of the function  $y = x^3 (4 + x)$ . Justify the nature of the stationary points found using a standard test.

(4 marks)	Solve the system of equations in part (a).	(q)
(2 тағкя)	Write down three equations using the above information.	(a)
	$\kappa$ , $\gamma$ and $z$ be the number of \$5, \$2 and \$1 notes respectively.	c təd
off : 10fal value of \$40. The notes, with a total of 19	foreign country, a student had a number of \$5, \$2 and \$1 notes v ber of \$1 notes was one more than the total number of \$2 and \$5 s altogether.	ıwnu
